### **INFORMATION ABOUT LIGHTNING PRESENTATIONS**

This is an exciting opportunity to present your work in front of other delegates. The great thing about these presentations is that they are only 5 mins long, therefore, you are not expected to stand up and give a full 20-minute presentation on the day. A short and informative presentation is all that is required.

Your PowerPoint slideshow should contain no more than six slides. (including a title slide which should only contain your name and the title of your presentation)

Please ensure that your slideshow is loaded a day in advance at the Speaker Ready Room at the conference venue. We will provide you with the exact details nearer to the conference. If you have any questions about the process in the meantime, please do not hesitate to contact the conference organising team at [conference@iaymh.org](mailto:conference@iaymh.org) and we will endeavour to help you.

To ensure that the session runs on time, please arrive 5 minutes early and ensure that you sit in the front row seats so that you can get to the presentation stage quickly and that none of your presentation time is wasted.

The session chair will introduce you and your title and once they have finished that, your first slide will be displayed and you will have 5 mins to do your presentation. It is recommended to practice your presentation in advance so that you are comfortable with the allocated time of 5 mins. The session chair will be there on the day to monitor your time and inform you when the 5 mins mark has been reached.

Please note that unfortunately there will be no time for questions but the conference programme will have plenty of time for networking and presenters will no doubt be approached to discuss their presentations.
